PROJECT EXPERIENCE

CipherTalk (Ongoing) | Android Studio | XML | Java | Firebase

An Android Messenger App

- Developed initial screens including Splash, Login, and Signup pages with clean and responsive UI in Android Studio.
- Implemented Intents for smooth navigation between activities.
- Integrated the app with Firebase for authentication and real-time database connectivity.
- Backend development is currently in progress to enhance functionality and scalability.
- Focused on user-friendly design, authentication flow, and secure data handling.

Cartify App (Ongoing) | Flutter | Figma

An Android E - Commerce App

- Designed multiple UI mockups and wireframes using Figma, focusing on clean layout and user-friendly navigation.
- Currently in the learning phase of Flutter app development to implement the designed UI into a functional mobile application.
- Acquired foundational knowledge of UI/UX principles through course-based training, with hands-on practice in screen creation.
- Next phase includes frontend development in Flutter and integrating backend services for product management and user authentication.
- App name is under finalization, and project is in early design-to-development transition.

ACADEMIC HISTORY

JAIN (Deemed - To - Be - University) , Jayanagar

Course : Bachelor of Computer Applications (Information Security And Mobile Application Development) .

- CGPA: 7.60
- Pursuing Bachelor's Degree – Final Year (5th Semester)

St. Francis Composite PU College , Koramangala , Pre - University (PUC) , Commerce Stream

- Scored : 94.50 %

DBM and RJS School , Koramangala , SSLC

- Scored : 75 %

TECHNICAL SKILLS

Android Studio | Figma | HTML | CSS | Java | SQL | XML | Version Control (Git & GitHub) | Dart | Flutter (Learning).

SOFT SKILLS

- Team Collaboration and Communication
- Creativity and User-Centric Design Thinking
- Time Management and Task Prioritisation
- Adaptability and Continuous Learning
- Attention to Detail and Accuracy
